DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Nawa et al US 2001/0023685. The reference discloses a small engine having a horizontally arranged cylinder with a mounting boss surrounding a fuel injector, part of mounting boss is rearward of injector.

3. Claims 1-2 and 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Hori et al. ('865).

4. The reference discloses an engine for a small vehicle having a horizontally arranged cylinder with a mounting boss rearward of a fuel injector used for mounting the injector and the fuel rail. See Figure 4.

5. Claims 1-2, 5-6, 11-12, 15-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Tahara et al ('727). The reference discloses the claimed fuel injector

and fuel rail mounting arrangement on an internal combustion engine. The statement of intended use "for an engine of a small size vehicle such as a motorcycle....." is given no weight since the intended use does not affect the device.

Allowable Subject Matter

6. Claims 3-4, 7-10, 13-14 and 17-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the cited art showing similar fuel injector mounting arrangements in internal combustion engines.
